GET READY FOR AUTONOMOUS!

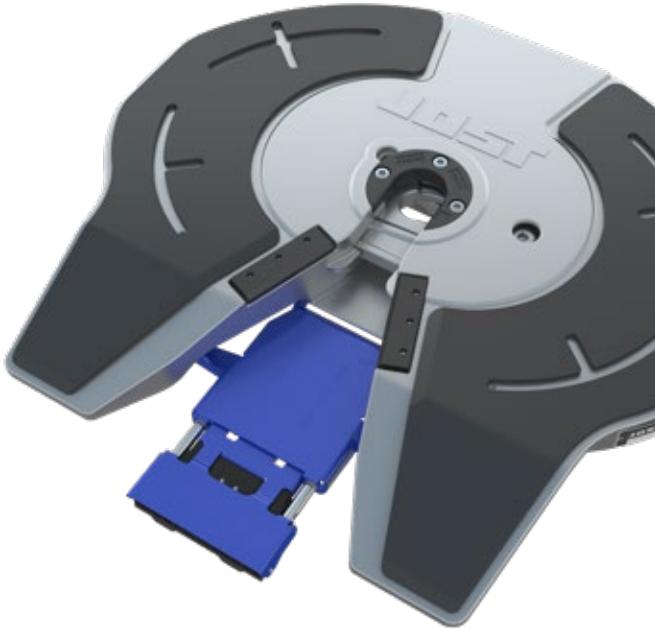
JOST makes the first step towards autonomous ports and yards

The JSK80 KKS is the first JOST terminal tractor fifth wheel combined with the famous KKS Connector - an unbeatable combination of JOST‘s many years of fifth wheel expertise and the globally unique KKS Connector.

The high-quality 2" cast fifth wheel is equipped with quick and easy to replace steel wear plates, wear ring and edge protection to withstand the rigours of everyday port use.

The KKS Connector makes all mechanical, electrical and pneumatic connections automatically and absolutely securely.



Advantages at a glance:

- 23t ECE homologated and 36t maximum vertical load
- Steel-made top wear plates, wear ring and edge protection
- Steel components optimized for quick and easy exchange
- Sensorics
- KKS Connector according to ISO 13044-2
- Especially durable, resistant and reliable
